PROFESSIONAL SUMMARY

Software Developer with solid fundamentals in Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Database Management Systems (DBMS), and Computer Networks, and hands-on experience building scalable web applications, RESTful APIs, and microservices using Python, JavaScript, Node.js, and React.js. Experienced with Git version control, Docker, CI/CD, and Agile development through a software internship and live projects. Seeking a Software Development Engineer (SDE) role.

EDUCATION

Course	Institute Name	University / Board	Year	Score (%/CGPA)	Type
B.Tech	Narula Institute of Technology, Kolkata	MAKAUT	2027	CGPA: 7.48/10	Full-time
12th	Dreamland School	ISC	2021	74.60%	Full-time
10th	Dreamland School	ICSE	2019	69.30%	Full-time

EXPERIENCE

Fortune Minds India LLP *Feb 2026 – Sep 2026*
Software Developer Intern

- Developed and maintained full-stack web application features using React.js, Node.js, and Firebase.
- Collaborated with cross-functional teams to design and integrate RESTful APIs and backend services.
- Contributed to AI-integrated features using LLMs and automation workflows, gaining hands-on experience with Git, Agile practices, and deployment workflows.

TECHNICAL SKILLS

Languages	C, C++, Python, JavaScript, SQL
Core CS	Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Database Management Systems (DBMS), Computer Networks
Backend	Node.js, Express.js, RESTful APIs, API Integration, Microservices
Databases	MongoDB, PostgreSQL, MySQL, Firebase Firestore
Frontend	React.js, Next.js, HTML5, CSS3, Tailwind CSS, Vite
Tools & Practices	Git, GitHub, Postman, Docker, CI/CD, Agile/Scrum, Software Development Life Cycle (SDLC), Debugging, Problem Solving
AI / ML	Machine Learning, Deep Learning, Large Language Models (LLMs), AI Agents

PROJECTS

Provium — Autonomous DeFi Compliance Infrastructure provium.vercel.app

- Developed a Python-based autonomous compliance system that connects on-chain DeFi protocols with off-chain Zero-Knowledge cryptography for privacy-preserving compliance verification.
- Built AI-driven autonomous agents using the Agno framework and Groq Large Language Models (LLMs), implementing monitoring, intelligent decision-making, and automated compliance workflows for blockchain transactions.

The MindMates — AI-Powered Mental Wellness Platform themindmates.in

- Engineered a full-stack mental wellness platform using React.js and Firebase with AI-powered emotional support, journaling, mood tracking, and guided self-reflection workflows.
- Designed responsive UI/UX, authentication, real-time data management, and privacy-focused application architecture to provide a scalable and secure user experience.

Sahchari — Privacy-Focused Women's Health Platform sahchari.themindmates.in

- Developed a full-stack menstrual health and life-planning platform featuring cycle tracking, symptom and mood logging, personalised wellness insights, and reminder workflows.
- Implemented responsive interfaces and privacy-focused data handling using modern web technologies, focusing on accessibility, usability, and secure management of sensitive user information.

LEADERSHIP & ACTIVITIES

- **Web Development Associate — GDG on Campus:** Conducted technical workshops and mentored students in modern web development technologies.
- **Tech Speaker — IETE Student Chapter:** Delivered technical sessions and led teams in hackathons and technical competitions.
